

SUMMER SCHOOL CERTIFICATED EMPLOYEES

It shall be within the discretion of the board to offer an education program during the summer recess. Certificated employees who volunteer or who are appointed to deliver the summer education program shall be compensated in addition to their regular duties during the school academic year, unless such arrangements are made prior to determining the employee's compensation for the year.

If a summer education program is offered, certificated employees shall be given the opportunity to volunteer for the positions available. If no certificated employee with the required endorsement volunteers for the position, the superintendent will make the necessary arrangements to fill the position.
