

STUDENT ILLNESS OR INJURY AT SCHOOL

When a student becomes ill or is injured at school, the school district shall attempt to notify the student's parents as soon as possible.

The school district, while not responsible for medical treatment of an ill or injured student, will have employees present administer emergency or minor first aid if possible. An ill or injured child will be turned over to the care of the parents or qualified medical employees as quickly as possible.

It shall be the responsibility of the staff member in charge at the time of the accident to fill out an on-line accident report and submit the report to the school nurse within twenty-four hours after the student is injured. The school nurse will submit the accident report to the appropriate building principal. The building principal will print the accident report, sign it and file the report at the district office.

Annually, parents shall be required to complete a medical emergency authorization form indicating the procedures to be followed, if possible, in an emergency involving their child. The authorization form will also include the phone numbers of the parents and alternative numbers to call in case of an injury or illness.

The superintendent shall be responsible, in conjunction with the school nurse, to develop rules and regulations governing the procedure in the event a student should become ill or be injured at school.
